EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Cancel claim 5.

Election/Restrictions

This application is in condition for allowance except for the presence of claim 5 directed to a species non-elected without traverse. The amendment to claim 3 defines the first rotation restricting device as restricting rotation of the ring gear, which renders claim 3 as not generic to the all of the disclosed species. In particular, species II, to which claim 5 pertains, requires the first rotation restricting device to restrict rotation of the carrier rather than the ring gear. Accordingly, claim 5 has been cancelled.

Art Unit: 3618

Status of Amendment

The amendment to the claims has been entered. Claim 10 is added. Claims 1-4 and 6-10 are pending. The substitute specification has been entered. Also, replacement drawings were received and are approved.
